3. The Chairman asked if responsible U. S. parties will use the services of RSB/SR in the forthcoming ITU Administrative Radio Conference in Geneva. [REDACTED] stated that current U. S. planning appeared to be political rather than technical, so that RSB has not been requested to furnish any information to date. However, RSB/SR is preparing to collate information which might be anticipated in view of the fact that the requirements of the USSR have been made available to them. [REDACTED] reported that the Radio Policy Committee had met on probable courses of actions to be followed by U. S. delegations to the conference.
